OF TRENTO - Italy

# Developing a smart university in a smart city

Paolo Collini  
Rector, University of Trento, Italy

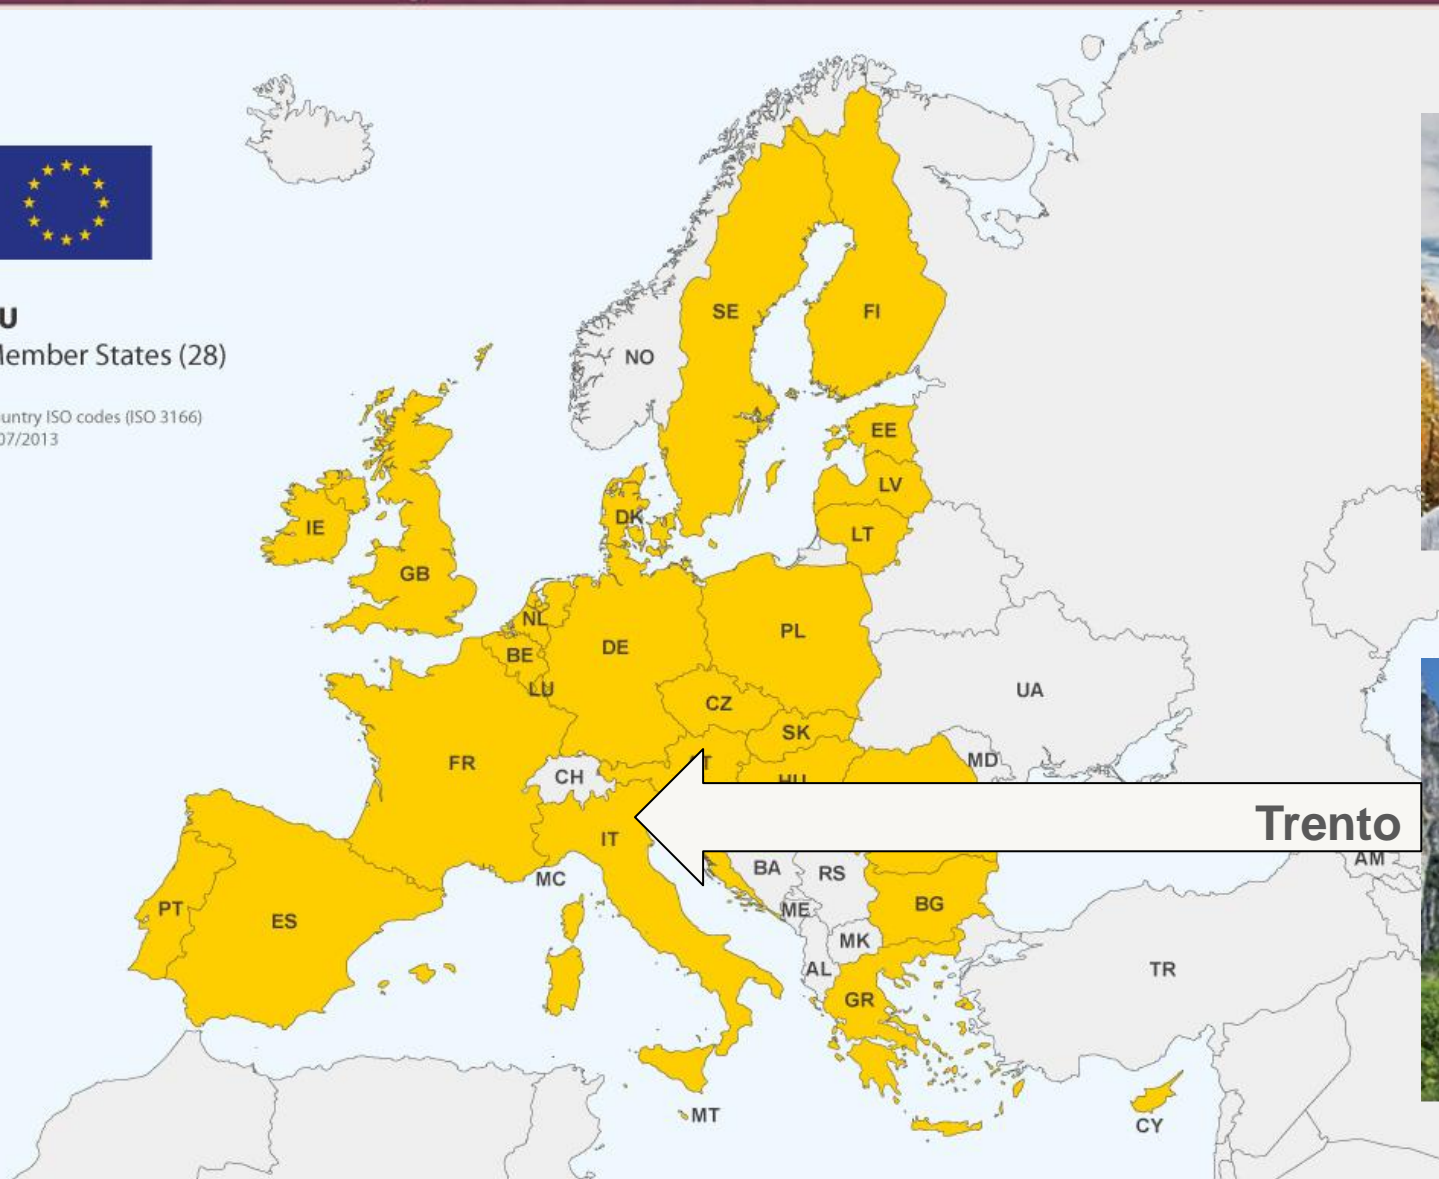

UNIVERSITY  
OF TRENTO - Italy

## Where is Trento |

**EU**  
Member States (28)

Country ISO codes (ISO 3166)  
1/07/2013

### Trento and Trentino in the heart of the Alps

In spite of being a small city (117.000 inhabitants), Trento is still nowadays an important cross road between the Mediterranean and the Alpine areas and a place of cultural dialogue. Trento is county seat of Trentino, an autonomous province in the North east of Italy.

#### Distance from Trento to:

Verona	98 km
Milan	220 km
Venice	157 km
Innsbruck (Austria)	173 km

Trento was founded in the first century B.C. by the Romans, with the Latin name of “**Tridentum**”. Trento’s artistic and historical heritage is to be found in its monuments, which embody the centuries of history written under the dual influences of northern European and Italian cultures, still evident today in the variety of architectural styles.

UNIVERSITY  
OF TRENTO - Italy

## The University of Trento |

The University of Trento is a small/middle-size, comprehensive University.

Founded about 50 years ago, from its very beginning, it has always been protective towards its academic freedom and it has always been engaged in the development of the local community which hosts and supports the University itself.

## 10 Departments

- Civil, Environmental and Mechanical Engineering
- Economics and Management
- Faculty of Law
- Humanities
- Industrial Engineering
- Information Engineering and Computer Science
- Mathematics
- Physics
- Psychology And Cognitive Science
- Sociology And Social Research

## 3+1 Centres

- Centre for Integrative Biology (CiBIO)
- Centre for Mind/Brain Sciences (CiMeC)
- School of International Studies
- Agri-food & Environment (to be approved on Sept. 22, 2015 by the Board!)

## 60 Research Laboratories

1 Language Centre

5 Main Libraries

**A Comprehensive small/medium size research intensive university with a strong focus on science and technology (and no medical school)**

### People

- 590** Professors and Researchers
- 690** Technical and Administrative Staff
- 500** Ph.D students
- 400** Post Docs
- 16.164** Total enrolled Students (about  
3.300 undergraduate intake –  
1.800 graduate intake)
- 1.600+** Foreign enrolled students  
(EU/non EU) in 2013/14

The University of Trento currently holds outstanding positions both in **national** and in **international rankings**.

In the best known **national classification** annually drawn up by the **Censis**, UniTrento is always ranked among the top universities. In 2014-2015 Trento was ranked **2nd** among the medium-sized Italian universities (between 10 and 20 thousand students)

In the last report drawn up in 2013 by **ANVUR** (the Italian National Agency for the Evaluation of the University System and Research), Trento was ranked **1st** for **scientific production** in the category of medium-sized Italian universities.

According to **Il Sole 24 Ore**, the most important among Italian financial newspapers, UniTrento is in the **2nd position** among the best Italian public universities.

In the **international classification** drawn up by **THE- Times Higher Education** 2014-2015 the University of Trento ranked first among Italian Universities. **In QS ranking** UniTrento is ranked **in the 400-450 range**.

Taking advantage of programs of the European Commission that **foster interdisciplinary and innovative research**:

**23 projects financed under the new Horizon 2020**

**116 financed under FP7**

**19 total ERC GRANTS**

**August 2014:** Trento, together with Guadalajara (Mexico) and Wuxi (China) is selected by IEEE (Institute of Electrical and Electronic Engineers) among the best 10 Smart Cities in the world.

**The goal:** to offer a model of development in the field of ICT integrated to everyday life.

### Benefits for cities:

- ☐ workshops to develop **white papers** on which future work will be based
- ☐ **education resources**, including support for Masters and PhD students
- ☐ development of smart cities-related courses with a focus on **MOOCs**
- ☐ organization of an **international conference** on smart cities
- ☐ **knowledge base/repository** to serve as a source of lessons learned

UniTrento benefits from the surrounding knowledge-intensive Trentino region which is traditionally devoted to **innovation**.

Trento is the **only south-European node** of the European Institute of Innovation and Technology (EIT).

EIT-Digital (former ICT-Labs): renew Higher Education and Technology Transfer in ICT by **cross-fertilizing technical education** with robust innovation and **entrepreneurship** education.

Technology is not enough

Innovation should not remain abstract:  
citizens must **take part in it**, and **drive it**

## UniTrento role:

shape this new thinking, also with:

**aggregation** and **contamination** of  
different knowledge:

sociology, art, literature, psychology, economy

**meet**

engineering, science, and ICT

**UNIVERSITY AS A LIVING LAB**

*Today's students are tomorrow's citizens*

They must live **first-hand** the new smart city culture

Bottom-up knowledge creation

**Labs, theses, teaching projects** related to smart cities

**Students** are in the front run to **test, try, shape the smart city**

SmartCampus: supporting the campus with its students

Apps made **from students for students**

## iFame

Check the **queue** at the **canteen**  
in different locations

Check the daily **menu** and the  
**composition of the meal**

## Viaggia Trento

Plan your trips

Check the **train and bus timetable**

Check the nearest **car park**

### The role of UNIVERSITY as innovation promoter

- **Innovation HUB** taking into the same «organizational place» the main research institutions and the local public innovation agency
- Projects with technical high schools taking advantage from the diversity of specializations (design, fashion, applied technical capabilities)
- Integrating professional education with university education (dual programs)
- **THE ROLE OF C.LAB in the community**
  - C.LAB mixing students from different areas of studies
  - C.LAB taking young students from local schools (8-11) to deal with technology in ICT
  - C.LAB as an arena for entrepreneurs, students, scholars in sharing ideas

University sport events are promoted through the new university network of sport services and facilities called UNI.Sport.

The project originates from the idea that practicing sports at university is not just considered a way to feel good and have fun, but it's also an occasion to learn and develop research activities.

Projects funded under the call “**smart cities 2014**”  
financed by the **Italian Ministry of Education,  
University and Research**:

### INF@NZIA DIGI. tales 3.6

Exploiting **technologies** for new active and creative  
**learning experiences** focused on children (3-6 years)

### SMARTOUR

Integrated platform of **innovative services** for the  
management of **tourist experiences**

### SmartGATEpluS

Improving the effectiveness and **efficiency** of the system  
of **Administrative Justice** (AJ) in Italy

Ministero

Istruzione

Università

Ricerca

## The role of UniTrento | spinning-off toward Smart Cities

INTELLEGI+  
Turning science into intelligence

**managing** the **risks** associated with **security**,  
including **geopolitical** risks

**infomobility** services  
**digital menu**  
services for **visually impaired**

IKUBED

INTELLIGENT  
INFRASTRUCTURE  
INNOVATION

**increasing safety** thanks to the objective  
knowledge of the structural behavior

UNIVERSITY  
OF TRENTO - Italy

## The role of UniTrento | spinning-off toward Smart Cities

Seelko

the future of energy harvesting

Investing in new ideas and **technologies for renewable energies and clean tech**

xtensa

Improved **Human-Computer Interaction** through **computer vision**

*Smart Hydrogeological Solutions*

Customizing software solutions for the **management of surface and subsurface water resources**

UNIVERSITY  
OF TRENTO - Italy

## The role of UniTrento | spinning-off toward Smart Cities

Prevention of **hydrogeological risk**

**Detecting** and measuring the concentration of  
**Radon**

**Robotics** and Automation  
**Sensing** via Mechanical Measurement  
Systems and Computer Vision

UNIVERSITY  
OF TRENTO - Italy

## The role of UniTrento | partnership with local companies

**Being in a smart city means also to develop smart relations: industrial community**

**Fostering innovative production** through interaction between companies and the university as a community of citizens.

### Industrial Problem Solving with Physics

**3 companies** and **30 students and young researchers**

A week to find a solution to the problems set by the companies through focus groups and problem solving strategies.

The Evaluation Committee gives an award to the most innovative solution.

**INDUSTRIAL  
PROBLEM SOLVING  
WITH PHYSICS**

20-25 luglio, 2015  
Trento (Italia)

UNIVERSITY  
OF TRENTO - Italy

## The role of UniTrento | a smart university

Our smartness for our Smart City:

- **connect** knowledge
- citizen-focused highly innovative **research projects**
- **Student community** as a **living lab** for innovation
- learn how to be a smart citizen through **higher education**
- develop **intellectual property** and **services** for the smart citizens of today and tomorrow

UNIVERSITÀ  
DI TRENTO

*GRAZIE!*
